Senior Frontend Developer with over 4 years of experience in developing responsive and accessible web applications using modern technologies such as React.js, TypeScript, and GraphQL. Demonstrated ability to deliver high-performance, user-centric applications that adhere to best practices in web accessibility. Proven track record of collaborating with cross-functional teams to create scalable solutions, enhance web performance, and ensure inclusive user experiences for diverse audiences.

Skills

Language Proficiency

Javascript • TypeScript • HTML5 • CSS3

Web Development & Frameworks

React.js • React Native • Redux • React Context • Node • Jest • Storybook.js • i18next • Apollo Client • GraphQL APIs • RESTful APIs

Experience

Cisco

Feb 2022 - Oct 2024

Senior Frontend Developer

- Developed responsive and dynamic web pages for Webex Events, a SaaS platform enabling interactive virtual, hybrid, and in-person events. Leveraged React, CSS-in-JS, and Apollo GraphQL to enhance user experience and satisfaction, contributing to the platform's scalability and adaptability across diverse event types.
- Integrated GraphQL APIs to enable efficient and flexible data fetching, enhancing application performance and user experience.
- Implemented reusable UI components with @mui/material and styled-components ensuring design consistency and scalability across the platform.
- Collaborated with product managers, designers, and back-end developers to deliver features that align with project goals and timelines.
- Focused on optimizing web performance and accessibility, ensuring a seamless experience across different devices and browsers.
- Conducted code reviews and participated in agile development processes, contributing to continuous improvements in code quality and team collaboration.

90Pixel

Mar 2021 - Jan 2022

Frontend Developer

- Developed and maintained web applications for various outsourced projects using React, Next.js, and TypeScript.
- Implemented responsive and dynamic UI components with several CSS solutions, ensuring high-quality design and performance.
- Integrated REST APIs to create seamless and scalable user experiences, optimizing application functionality.
- Collaborated with product managers, designers, and back-end developers to deliver features that align with project goals and timelines.
- Focused on optimizing web performance and accessibility, ensuring a seamless experience across different devices and browsers.
- Conducted code reviews and participated in agile development processes, contributing to continuous improvements in code quality and team collaboration.

DIGIEGGS

Jul 2020 - Feb 2021

Frontend Developer

- Developed and maintained web applications for various outsourced projects using React and TypeScript.
- Implemented responsive and dynamic UI components with several CSS solutions, ensuring high-quality design and performance.
- Integrated GraphQL APIs to enable efficient and flexible data fetching, enhancing application performance and user experience.
- Collaborated with product managers, designers, and back-end developers to deliver features that align with project goals and timelines.

- Focused on optimizing web performance and accessibility, ensuring a seamless experience across different devices and browsers.
- Conducted code reviews and participated in agile development processes, contributing to continuous improvements in code quality and team collaboration.

Education

Uludağ University

Bachelor of Computer Education and Instructional Technology

- Gained practical knowledge in leveraging instructional technologies and diverse teaching methods to effectively instruct students in software development.
- GPA of 3.19 / 4

Bursa, Turkey

2015 - 2020

Alytus College

Technologies of Information Systems

Participated in the Erasmus program, spending a semester in Alytus, Lithuania. This experience strengthened my independence, problem-solving abilities, and adaptability, while significantly enhancing my social and intercultural communication skills.

Alytus, Lithuania

2016 - 2017
